WHY THE UAE

With exponential growth in real estate in the past decade, the United Arab Emirates, at the nexus of three continents, is where over two billion people conduct trade and commerce. Dubai has a healthy ROI. The country is also a tax-free country, which makes Dubai very investor friendly. The location seamlessly integrated Europe with the Far East and gives you access to markets in Northern Africa, Southern Africa, the Middle East, CIS countries, and the Indian subcontinent.

RISK FACTOR MITIGATION

When you are looking for the best place to invest in real estate, look at investments in the United Arab Emirates. Low real estate prices, great investment laws for foreign investors and attractive capital appreciation attract investors looking for international investments.

ECONOMIC GROWTH

The fast-growing real estate market and economy, featuring substantial financial reserves and a durable banking sector, goes a long way in mitigating the risk factor of international investments, and makes the United Arab Emirates one of the top economic powerhouses.

WORLD-CLASS INFRASTRUCTURE

Enjoy a world-class infrastructure including Free Trade Zones, state-of-the-art travel amenities and advanced health care facilities; it is one of the best and easiest markets to invest in. UAE is ranked number 1 as the centre of connectivity to the rest of the world. Its great location & comfortable living environment now makes it home to over 200 nationalities.

LONG-TERM RESIDENCE VISAS

The United Arab Emirates now issues long-term residence visas for five or ten years. Several visas are available, including a business visa, tourist visa, transit visas and student visas. Additionally, retirement visas, eVisas for GCC residents and visas for patients and their caregivers are available. The visas are easily renewable.

STRONG REGULATORY AUTHORITY AND TAXATION

The United Arab Emirates' regulatory authority, the Real Estate Regulatory Agency (RERA), protects investors' rights; the government does not impose a capital gains tax, personal income tax or withholding tax. The regulations and the absence of these significant taxes makes the United Arab Emirates an attractive place to live and work. Tax benefits and lenient regulatory requirements for customs duties continually attract international corporations to move their headquarters to the United Arab Emirates.

TRADE WITH THE WORLD

The United Arab Emirates has liberal, free-market policies, which attract major businesses, including Microsoft, CISCO, IBM & SIEMENS, and other Global Fortune 100s across FMCG. Many financial service companies, real estate companies and healthcare service companies have their headquarters in the United Arab Emirates. The freehold property laws also boosted the country's investment and economic potential and continue to do so.

“ Real Estate cannot be lost or stolen, nor can it be carried away.
Purchased with common sense, paid for in full,
and managed with reasonable care,
it is about the safest investment in the world.

-Franklin D. Roosevelt
